

Table 1: Direct experimental measurements of  $\phi_s^{c\bar{c}s}$ ,  $\Delta\Gamma_s$  and  $\Gamma_s$  using  $B_s^0 \rightarrow J/\psi\phi$ ,  $J/\psi K^+K^-$ ,  $\psi(2S)\phi$ ,  $J/\psi\pi^+\pi^-$  and  $D_s^+D_s^-$  decays. Only the solution with  $\Delta\Gamma_s > 0$  is shown, since the two-fold ambiguity has been resolved in Ref. [1]. The first error is due to statistics, the second one to systematics. The last line gives our average.
